

Kick the Can out of Your Banquet Carts with **EnduraHeat**TM

Transport your banquet meals and keep them warm for two hours... Unplugged!

EnduraHeat's unique heat retention system allows you the flexibility to transport meals anywhere and not have to worry where you'll find the next electrical outlet or spend money on chafing fuel. Just charge the heating system, load your plates, unplug and go! EnduraHeat will radiate warmth throughout the cabinet for two hours and keep your food at serving temperature.

BR120

Unplug your banquet service and eliminate the expense, hassle and risk of open flame. EnduraHeat keeps food at serve safe temperature for up to two hours with this innovative, patented heat retention system.

- Eliminate the expense of canned fuel
- Eliminate fire hazard
- Eliminate scorched food and plates
- Eliminate the labor required to light and monitor canned fuel
- Eliminate fuel fumes that affect food flavor

EnduraHeat™

Heat Retention Banquet Carts

Get dependable, consistent, safe heat... anywhere, anytime. Simply charge the EnduraHeat system for one hour, load your food, unplug and go. It's that simple. And, because it's built by Carter-Hoffmann, you know it's designed for years of trouble-free operation and has the quality stainless steel construction and added features that have made Carter-Hoffmann a leader in transport carts for more than 60 years.

FEATURES

Operates on EnduraHeat mode or standard convection heat mode

All welded stainless steel construction for easy cleaning and long life

All swivel balloon casters in wheel-ahead configuration for a smooth ride

Full-length, extra-strong tubular door hinges

Double-door access with stainless steel door handles and roller latches

Ergonomic handles for easy steering and comfortable grip

Four models:

BR96	96 plates up to 11" diameter
BR120	120 plates up to 11" diameter
BR150	150 plates up to 11" diameter
BR1000	96 plates up to 12-3/4" diameter

Don't get burned by the high cost of canned fuel! As the price of petroleum-based products rises, so does the cost of canned fuel.

4 cans per cart at \$1.66 each x two meals /day = \$13.28 per day

\$13.28 per day x 365 days = \$4847.20 PER CART in one year!

*Four hour cans of Sterno™ brand, 24 per case at average price of \$40/case (internet source in August of 2007)
