Smart Order Pick-Up Cabinets

Pick-Up Cabinet System Overview

PUC Smart and Connected Cabinets are the Solution for Pick-Up and Drop-Off Programs offering:

- No-contact, streamlined pick-up
- Convenience and speed of service
- Safety and security for all orders
- Labor savings
- High throughout rate and increased sales

The PUC Platform is Flexible and Highly Customizable

- Cabinets can be stand-alone or integrated into your POS system
- Capacity can be expanded by adding new lockers to existing ones
- Any combination of heated, ambient or cooled lockers

PUC Software

- Is highly configurable for workflow and integration
- Supports any cabinet configuration on one network
- Can be customized for data collection and analytics
- Can be monitored remotely

PUC is the Perfect Solution for:

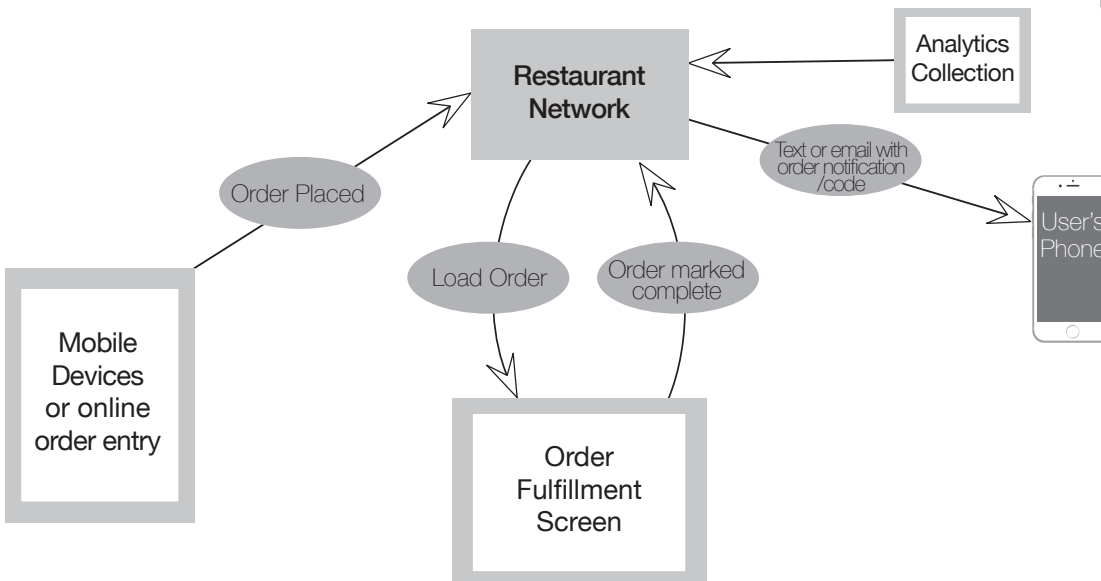

- Restaurant Carry-Out
- Retail Pick-Up and Drop Off
- Sports and Concert Venues
- Colleges and Universities
- Pharmacies
