To Whom It May Concern:

This is a letter of testimony for the Carter-Hoffmann GardenChef Model GC41. We at JL Mann High School Food and Nutrition have found the GardenChef to be a tremendous asset in the kitchen. It gives us the opportunity to offer our students fresh, nutritious micro greens and herbs on a daily basis. The cabinet is very simple to set up and offers four different sanitary growing zones -so we can always keep a wide variety of seeds started and growing. We grow basil, cilantro, parsley and oregano for flavor and garnishes in our recipes. We also grow micro kale, cabbage, carrots, and lettuces to add bursts of nutrition to our garden salads. Teachers and students enjoy seeing the fresh produce harvested and used in their meals daily. Cleaning and maintenance has been very simple.

The GardenChef is a wonderful, state of the art piece of equipment to have in a school food service kitchen.

Sincerely,

Amanda Drew

FANS Training Manager

JL Mann High School
